

VITOR G. REISLER

LOOKING FOR A NEW CAREER PROJECT

PROFESSIONAL SUMMARY

I am fascinated by innovation and enjoy taking on complex challenges. I consider myself a very motivated person and always trying to learn using autodidactic tools.

I love to create solutions that pull both best practices and out-of-the-box thinking is my super-power. Throughout my career, I have worked to build expertise in the development of solutions to increase efficiency and revenues. Today I'm looking for a new career challenge to fit the expertise acquired in the past few years.
